

# TVAAS

**Report:** School Evaluation Composites

**School:** Maxine Smith STEAM Academy

**District:** Shelby County

**Test:** TCAP (Grades 4-8)/EOC

## 2021-2022 Composite Trends

Composite Type	One-Year Trend*	
	Index	Effectiveness Level
Overall	3.34	5
Literacy and Numeracy	3.27	5
Literacy	2.50	5
Numeracy	2.46	5
Science	-2.07	1
Social Studies	3.37	5

**\*Year Trend**

*Educators using school composites for the growth component in the Tennessee Educator Acceleration Model (TEAM) select a school composite from the available options; all school composites use data from the most recent year (2021-22).*

### What is included in an evaluation composite?

**TDOE Policy**

School TVAAS Composites are scores that assess growth at the school level. For 2021-22, school composites are used for the evaluation of educators who require school reporting. Scores will be reported on a 1-5 scale. The table above reports the 2021-22 school composites.

Note: The subjects listed for the CTE concentrator and CTE student composite include all the EOC subjects with value-added estimates. Some of these subjects might be excluded from CTE concentrator and CTE student composite if there were not enough CTE participants to produce a reliable estimate.

Science and Social Studies are listed as subjects that might be included in the composite, but they are not included for grade 3.

## Descriptions of Composite Types

Composite Type	Composite Might Include	
	Test	Subject
Overall	Grades 3-8	English Language Arts, Math, Science, Social Studies
	EOC	Algebra I, Geometry
Literacy and Numeracy	Grades 3-8	English Language Arts, Math
	EOC	Algebra I, Geometry
Literacy	Grades 3-8	English Language Arts
Numeracy	Grades 3-8	Math
	EOC	Algebra I, Geometry
Science	Grades 3-8	Science
Social Studies	Grades 3-8	Social Studies

Rules for Determining Effectiveness Level
Level 5, Most Effective: Significant evidence that the school's students made more growth than expected (the school's index is 2 or greater).

## TVAAS

Level 4, Above Average Effectiveness: Moderate evidence that the school's students made more growth than expected (the school's index is between 1 and 2).

Level 3, Average Effectiveness: Evidence that the school's students made growth as expected (the school's index is between -1 and 1).

Level 2, Approaching Average Effectiveness: Moderate evidence that the school's students made less growth than expected (the school's index is between -2 and -1).

Level 1, Least Effective: Significant evidence that the school's students made less growth than expected (the school's index is less than -2).

Note: When an index falls exactly on the boundary between two levels, the higher level is assigned.
