

TVAAS 2023 FALL TRAINING

Walking a Mile in Our Students' Shoes

The Tennessee Department of Education has partnered with SAS® EVAAS to provide dynamic, collaborative training for TVAAS users. In these sessions, district leaders, school leaders, instructional coaches, and lead teachers will discover how they can use the updated student reports to inform decisions. Learners will view reports from a personal perspective and explore how the data can support students' scheduling, course selections, tiered supports, and enrichment. Administrators are strongly encouraged to participate with instructional coaches as time will be spent analyzing and discussing student data in a small workgroup setting. We can't wait to see you!
